

TENDER DOSSIER

Request for Proposals for Third-party Evaluation of JPF Funded Projects in Yemen

**Tender Reference:
JPF-YMN-23-001**

11 August 2023

A – INSTRUCTIONS TO BIDDERS

By submitting a tender, the bidder accepts in full and without restriction the special and general conditions governing this contract as the sole basis of this tendering procedure, whatever his own conditions of sale may be, which hereby waives.

Bidders are expected to carefully examine and comply with all instructions, forms, provisions, and specifications contained in this tender dossier. Failure to submit a tender containing all the required information and documentation within the deadline specified will result in the rejection of the tender.

Any reservation made by the bidder in the tender proposal will not be considered and will result in the immediate rejection of the tender without further evaluation.

The tender procedures will be conducted by personnel from the Japan Platform (JPF), and the decision will be made by the tender committee. If requested, representatives from the partner organizations may attend the tender committee as observers.

By adhering to these guidelines, the bidder can ensure that their proposal is evaluated fairly and on an equal basis with other proposals. Any failure to comply with the requirements of the tender dossier may result in the disqualification of the bidder's proposal.

1. Preamble:

The Japan Platform (hereinafter referred to as "JPF") is an international humanitarian aid organization which offers the most effective and prompt emergency aid in response to humanitarian needs, focusing on issues of refugees and natural disasters. JPF conducts such aid through a tripartite cooperation system where NGOs, business communities, and the government of Japan work in close cooperation, based on equal partnership, and making the most of the respective sectors' characteristics and resources.

JPF serves as an intermediary support organization providing various types of assistance to member NGOs in Japan to deliver quick and comprehensive aid on their own. JPF has supported aid activities of 46 member NGOs, each with its own set of diverse strengths. It has delivered humanitarian assistance to 50 nations and regions about 1,800 projects, with a total financial contribution of 72 billion yen. JPF has built a strong reputation based on trust by promoting cooperation among private sectors and NGOs and by accurately reporting all its activities.

Please find attached JPF Information Leaflet as Annex 1. More information on JPF can be found at <https://www.japanplatform.org/index.html>.

As part of JPF's mandate, JPF has been carrying on emergency humanitarian assistance because of the conflict that started in March 2015 which has intensified with the external interventions that have added fuel to the fighting between government and those allied to the Houthi rebel movement. The Inter-Agency Standing Committee has declared the Level 3 emergency response, placing this crisis at the severest level of humanitarian crises happening in the world today.

JPF emergency humanitarian assistance program focusing on protection, education, food and NFI distribution, provision of safe water, improvement on malnutrition, and other lifesaving & sustaining actions, along with its member NGOs, intended to meet the most desperate needs among the people in Yemen who have been affected by the conflict.

2. Purpose of the Request for Proposals

The purpose of this request for proposals (RFP) is to solicit competitive offers for the provision of evaluation services for 2 projects which are funded by JPF and implemented by member NGOs in Yemen.

JPF seeks to contract a Third-Party Monitoring (TPM) entity to accurately capture information, verify activities and analyze data on implemented project activities, and provide recommendations that can be utilized when implementing same or similar projects. In particular, the TPM entity will be an essential quality assurance activity in project locations where JPF has no or limited access to for various reasons. JPF will use the outcome

of this evaluation activity to improve the current and future projects. The evaluation reports will be made available to public as a part of JPF's activity to ensure accountability to the donor and public.

3. The main objectives of the evaluation activities are:

To ensure the effectiveness and success of humanitarian projects, evaluation activities play a critical role. These activities serve several key objectives, including:

- Verifying adherence to humanitarian principles and standards: Evaluation activities should place special emphasis on verifying that humanitarian principles and standards are respected, with a particular focus on neutrality. This ensures that the project is implemented in a way that is impartial and without bias.
- Ensuring adherence to project proposal: Evaluation activities should also verify that project activities are being implemented according to the project proposal. This helps to ensure that the project is staying on track and meeting its objectives.
- Analyzing project impact: Evaluation activities should also analyze the impact of the project on the target population. This helps to determine whether the project is having the desired effect and meeting the needs of the intended beneficiaries.
- Ensuring adherence to humanitarian standards: Evaluation activities should verify that all relevant humanitarian principles and standards, including the Core Humanitarian Standards (CHS), are being respected. This helps to ensure that the project is being implemented in a way that is consistent with best practices and industry standards.
- Understanding beneficiary satisfaction: Evaluation activities should seek to understand the level of beneficiary satisfaction with the project. This helps to ensure that the project is meeting the needs and expectations of those it is intended to serve.
- Evaluate how Japanese NGOs/Japan Platform (JPF) member organizations manage local implementing partners, what specific support measures can be most effective, what types of assistance can be provided in the short-term, medium-term, and long-term to offer effective aid, and identify the most suitable projects and strategies for implementation for Japanese NGOs.
- Providing feedback for project improvement: Evaluation activities should provide feedback to the project team to help improve their future planning. This can include identifying the strengths and weaknesses of the project and suggestions for changes to the project design, implementation, or monitoring and evaluation.
- Documenting lessons learned: Evaluation activities should document, and extract lessons learned and best practices from the project. This helps to build knowledge and improve future projects by identifying what worked well and what did not, and how similar projects can be improved in the future.

4. Scope of Services

This RFP encompasses evaluation of **2 projects mentioned below** as part of JPF quality assurance activities. Before commencing with the evaluation activities, the successful bidder (contractor) will work closely with JPF and member NGOs in Tokyo, Japan and their local partner in Yemen. JPF will provide the contractor with relevant documentation, including the approved project proposal documents and other relevant information necessary for conducting the evaluation activities. The evaluation will cover conceptualization, design, implementation, monitoring, reporting, and evaluation of results, engaging all project stakeholders and beneficiaries.

Table 1: The projects subject to evaluation

No.	Project Name		Project Period	Type of Evaluation
1	Agriculture Emergency Rehabilitation Project in Lahj and Abyan – Phase 1	Member NGO - A	15 th Sep. 2022 – 14 th Mar. 2023	Impact of the 1 st Phase will be evaluated.
	Agriculture Emergency Rehabilitation Project in Lahj and Abyan – Phase 2		30 th Mar. 2023 – 29 th Sep. 2023	Project End evaluation will be conducted.
3	Improving food security through cash for food in Taiz governorate, Yemen	Member NGO - B	1 st Dec. 2023 – 31 st Jan. 2024	Emergency Food Aid Modality Evaluation

The scope of the first project evaluation related to agriculture is to assess the effectiveness and impact of the "Agriculture Emergency Rehabilitation Project in Lahj and Abyan," specifically focusing on its alignment with the development nexus. By conducting this evaluation, we aim to understand how the project's humanitarian interventions contribute to both immediate relief efforts and long-term development goals in Yemen. This evaluation will examine the project's outcomes in terms of improving agricultural practices, enhancing food security, and fostering sustainable livelihoods for the local communities in Lahj and Abyan. By analyzing the interplay between humanitarian assistance and development initiatives, we seek to identify synergies and opportunities for maximizing positive outcomes and ensuring that the project not only addresses immediate needs but also contributes to building resilient communities through localization and promoting lasting development in the region.

As mentioned above, the concept of humanitarian-development nexus is also one of the key themes of this evaluation. At the global level, the humanitarian-development nexus has increasingly become pertinent as the solution to complex and protracted humanitarian crises. The international aid community now places increased attention on the nexus in order to improve the quality of aid, seeing it as a key tool to address prolonged crises which need both humanitarian and development assistance. This project is implemented in Yemen, where continues experiencing one of the largest humanitarian crises in the world with 23.4 million people in need. Despite the emergency and humanitarian context of the target area, the project focuses more on the development aspect based on the perspective of increasing resilience through the rehabilitation of irrigation facilities and agricultural trainings to the affected communities. In order to contribute evaluative learning to JPF's strategy development and provide lessons for programming, this evaluation exercise also aims to provide insights and recommendations for practical improvement of JPF's approach to the humanitarian-development nexus by reviewing proposed project as one of the model cases.

The scope of the second project evaluation is to comprehensively analyze the effectiveness and impact of the humanitarian project in Yemen within the context of the prevailing food insecurity challenges. This evaluation is rooted in the understanding that food insecurity is worsening due to an intricate interplay of factors such as climate change, population growth, malnutrition, conflicts, and the recent global events, including the COVID-19 pandemic.

Given the dire situation in the region, the primary objective of this evaluation is to critically assess the strategies and measures undertaken by Japan Platform (JPF) member organization to address the acute food crisis in Yemen. Specifically, the evaluation seeks to determine the most effective support measures employed by local implementing partner for emergency food aid. Through an in-depth analysis of past and ongoing initiatives, the evaluation aims to identify successful approaches that can be categorized into short-term, medium-term, and long-term interventions. These approaches include not only traditional food distribution but also innovative methods like Cash for Food, Work for Food, Vocational Training that is combined with Food Distribution, among others.

Drawing from the insights gathered from the third-party evaluation of the Food Crisis 2022 support, the evaluation will provide actionable recommendations for Japanese NGOs. These recommendations will guide the selection and implementation of projects that align with the evolving needs of the local communities in Yemen. Furthermore, the evaluation will explore the potential of initiatives such as climate adaptation, water management, improved agricultural productivity, and promotion of nutritious diets in fostering resilience against the challenges of food insecurity in the region.

By critically examining the project's impact on the ground and its alignment with the complex development landscape of Yemen and the Middle East, this evaluation aims to contribute valuable insights to enhance the effectiveness of humanitarian interventions and ensure that they address both immediate and long-term food security challenges in the region.

The Scope of Evaluation includes, but not limited to followings;

1. Conduct the output to purpose review, validating the efficient delivery of intended outputs and ascertaining if and how they led to the intended outcome as per the purpose statement (in line with OECD DAC criteria of efficiency, effectiveness and coherence).
 - a. To what extent has the adaptive agriculture training and restoration of irrigation facilities facilitated agricultural rehabilitation of targeted households?

- b. To what extent has the project contributed to strengthen resilience of the beneficiaries through enhancing sustainable livelihood capacity and agricultural productivity
 - c. To what extent the project approach to working within the humanitarian- development nexus is relevant and effective under Yemen context, what would be the risks of implementing such project in emergency situation as well as exploring the applicability in other context.
2. Assess the level of satisfaction of beneficiaries (disaggregated by gender) with the changes brought by the project. Seek feedback from relevant stakeholders on the project interventions (in line with OECD DAC criteria of effectiveness).
 3. Assess the contributions of the project to Yemen Humanitarian Response Plan 2022 and JPF's program goals, particularly in terms of the following objectives (in line with OECD DAC criteria of impact and relevance);
 - a. Improved living standards and resilience of crisis-affected vulnerable women, girls, boys and men through timely and safe provision of assistance. (HRP 2022 Strategic Objective2)
 4. Assess the level of participation of, and accountability to the crisis affected people, particularly vulnerable individuals including women, in the project related decision making and assess how effectively the project strengthened a sense of ownership, capacity and systems among key local actors (in line with CHS Commitment 4 and Localization).
 5. Assess the likelihood of sustainability of the project interventions, specifically the adaptation of acquired knowledge and skills obtained through the training. (in line with OECD DAC criteria of sustainability)
 6. Draw lessons learnt from the evaluation for the implementing NGO, JPF and other JPF member agencies active in Yemen.
 - a. Recommendations for the implementing NGO on the project design, implementation modality and stakeholder engagement.
 - b. Recommendations for the member NGO on the project implementation that includes needs assessment, designing, selection of local partner organization, capacity assessment and development of implementing partner, coordination, monitoring and evaluation of implementing partner's activities.
 - c. Replicable lessons learnt on gender mainstreaming, behavior change communications, inter-sectoral programming that are of broader relevance beyond this project.
 - d. Recommendations for JPF on the program priorities
 - e. Areas for further discussion between JPF and its member agencies on the localization agenda and humanitarian-development nexus

Table 2: Strategic Objectives of 2022 JPF Yemen Humanitarian Crisis Program

Strategic Objectives		
1	Provide assistance that enables beneficiaries and communities to sustainably develop the effects and impacts of interventions	Given Intensifying and protracted armed conflict, the deterioration of Yemen's currency against the dollar, and reduced support from the international community, humanitarian needs in Yemen continue to grow. Taking limited resources for JPF Yemen program into account, JPF together with member NGOs will focus on interventions with medium-to long-term perspective, rather than short-term interventions such as food and cash distribution in order to maximize performance of its interventions. Thus, JPF Yemen program 2022 prioritize assistance that enables beneficiaries and communities to sustainably develop the effectiveness and impact of interventions.

Methodology: The evaluation methodology will be based on the OECD-DAC criteria, Core Humanitarian Standards and will employ mixed-methods to provide a comprehensive assessment of the project's performance. The evaluation will involve desk reviews of project documents, surveys, interviews, focus group discussions, and site visits.

Data Collection: The data collection process will include a review of project documents, such as project proposals, log-frames, progress reports, and other project outputs including tools and guidance materials, and monitoring data. Primary data will be collected through field surveys, interviews, and focus group discussions with project stakeholders, including beneficiaries, project staff, government officials, donors, UN agencies, and community leaders. Unless it is agreed with JPF, the data will be collected face to face.

Data Analysis: The data collected will be analyzed using both qualitative and quantitative methods, including statistical analysis, content analysis, and thematic analysis. The analysis will focus on assessing the project's relevance, effectiveness, efficiency and impact and identifying the key factors that have contributed to achieving or not achieving the intended results.

Reporting: The evaluation will result in a comprehensive report that will include an executive summary, evaluation findings, conclusions, and recommendations. The report will be in both written and oral formats, targeting project stakeholders, including government officials, donors, UN agencies, and communities.

Timeline: The evaluation timeline will include key milestones, including data collection, analysis, and reporting.

Human Resources: The evaluation team should consist of evaluation specialists, data collectors, data analysts, report writers and other experts if required. The team members will have the necessary qualifications, experience, and skills. ***The evaluation team should have specialists related to sector that the projects are implemented, in this case, it is expected the bidding entity to have agriculture expert and food security expert as part of the evaluation team.***

Access to Target Locations: The bidder should have access to the project locations and should process all required permissions from the authorities prior to the implementation of the field work.

The projects brief information and projects specific evaluation scopes for each project can be find as an [Annex - 2](#) and [Annex - 3](#) to this document. All documentation shared with the contractor is considered confidential, and a data protection protocol will be signed as part of the agreement.

5. Confidentiality:

The contractor is responsible for taking all necessary measures to protect the confidentiality of the information and data obtained during the evaluation activities. The contractor agrees to use the information and data solely for the purpose of the evaluation and to not disclose any information or data to third parties without the prior written consent of JPF.

The contractor further agrees to destroy or return all confidential information and data upon completion of the evaluation activities.

6. Deliverables

The contractor will report directly to JPF but will work closely with the member NGOs and project implementing partners. During the course of the field level data collection, the contractor is expected to provide JPF with timely feedback, notably in instances where immediate attention or action is warranted. For all tasks specific tools and templates will be developed and agreed to between JPF and the contractor following signing of the contract. It is expected that the reports provided by the contractor will adhere to the agreed upon templates. For all remaining tasks, general approaches will be developed and agreed to between JPF and the contractor, upon signing of the contract.

Expected activities and deliverables are:

- A pre-inception meeting/call with JPF and review documents from the member NGOs to gather required information for the inception report.

- Inception Report and Meeting: the contractor will provide a draft inception report specific to each project, including a detailed work plan and methodology, including approach, guiding questions, interview/survey questions, a proposed list of stakeholders to be interviewed or otherwise involved, proposed schedule of site visits, sample beneficiary and key informant selection strategy, a list of data to be collected and a timeline for the evaluation process. The inception reports will be finalized after receiving all the final feedback and comments at the inception meeting.
- Data Collection Tools: the contractor will develop data collection tools and methodology per project.
- Weekly and/or Monthly Reports: the contractor will submit a monthly report, containing timely, relevant, and verified project-level information to JPF.
- Success Stories: the contractor is expected to gather success stories, one per each project.
- TPM Report: The contractor will submit a TPM report separately for each project. It is expected that the TPM entity will submit a draft report and, after two rounds of feedback, will submit a final report.
- Raw Data and Visuals: the contractor will submit raw data and visuals collected during the contract period.
- Debriefing Workshops: the contractor will conduct debriefing workshop for the respective projects, with the participation of JPF and relevant member NGO representatives at the end of the TPM to further explain findings and make recommendations for current and future projects.

The contractor will report directly to JPF but will work in close collaboration with the project member NGOs. The contractor is expected to maintain regular communication with JPF and member NGOs during the field-level data collection to ensure that any issues are identified and addressed promptly. The contractor will provide JPF with timely feedback, particularly in cases where immediate attention or action is necessary. The contractor will work closely with project staff and partners to ensure that the evaluation process is conducted in a transparent and collaborative manner. The contractor will also be available to address any questions or concerns from project stakeholders related to the evaluation process.

7. Call for Proposal Schedule

	DATE	TIME*
Tender publication date	11 August 2023	
Deadline for request for any clarifications from JPF	20 August 2023	17:00
Last date on which clarifications are issued by JPF	22 August 2023	17:00
Deadline for submission of tenders (receiving date, not sending date)	27 August 2023	17:00
Tender Committee Meetings by JPF	28 Aug. – 01 Sep. 2023	-
Meeting with short listed Companies	4-5 September 2023	-
Notification of award to the successful tenderer	6 September 2023	-
Signature of the contract	8 September 2023	-

* All times are in the local time of Tokyo, Japan.

8. Questions and Clarifications

If JPF, either on its own initiative or in response to a request from a prospective bidder, provides additional information on the tender dossier, such information will be communicated simultaneously in writing to all the bidders. Bidders are encouraged to carefully review the call for proposals and may submit written questions to the following email address before the deadline for clarification requests, specifying the tender reference number. JPF will respond to all written questions in writing and will communicate the responses to all bidders simultaneously. JPF will ensure that all bidders have equal access to information related to the tender and that the tender process is conducted in a transparent and fair manner.

Bidders may submit questions in writing to the following address by email before the deadline for request for any clarifications, specifying the tender reference number JPF-YMN-23-001.

Contact Person:

Name / Surname	Title	E-Mail Address
Procurement Department	-	procurement@japanplatform.org

Any explanation or amendment to be made regarding the tender dossier shall also be shared with all applicants simultaneously. Bilateral negotiations will not be held with the institutions applying during the tender.

9. Meeting with the Institutions / Company Visits

No clarification or bilateral meeting will be held with the entities applying during the tender. Company visits will not be conducted. However, online meetings will be held with the short-listed candidates as mentioned under Clause 7.

10. Eligibility Documents Required for the Bidders

This tender is open to all natural and legal entities that are capable of providing the required documents as specified in the tender. JPF is committed to ensuring that the tender process is conducted on an equal and transparent basis, without discrimination or preferential treatment towards any bidder. If any of the required documents are in a language other than English, bidders must provide an English-translated copy along with the original document. This requirement ensures that all bidders have equal access to information related to the tender and that the evaluation process is conducted in a fair and impartial manner.

To participate in this tender, bidders must provide the following documents:

- Organizational Profile Document: This document should provide detailed information on the bidder's capacity and services, including previous and ongoing work, relevant experiences, registration details, establishment year, number of offices, number of full/part-time staff, experts, surveyors, etc.
- Valid Company Registration Documents: Bidders must submit valid company registration documents, including licenses obtained from the relevant governmental institution.
- Tax Documents: Bidders must provide the most recent original and valid tax documents.
- Address Declaration: Bidders must provide an address declaration for notifications, including phone and email address information. Bidders should indicate if they have an office in the countries of the target projects.
- Signature Declaration: Bidders must provide a signature declaration or list of authorized signatures indicating that they are authorized to submit bids.
- List of Ongoing or Past Activities: Bidders must provide a detailed list of any ongoing or past activities of their organization in the respective countries, along with organization and contact person for reference checks.
- Written Commitment: Bidders must provide a written commitment to not carry any of the "reasons for exclusion from the tender."

The Technical Proposal should include the following:

- Evaluation Design and Methodology: The bidder should provide a detailed evaluation design and methodology that outlines how the evaluation will be conducted.
- Monitoring and Evaluation Targets: The bidder should indicate the monitoring and evaluation targets for field visits, household surveys, focus group discussions, and key informant interviews separately for each project.
- Evaluation Implementation Work and Time Plan: The bidder should provide an evaluation implementation work and time plan that outlines the steps to be taken and the timeline for completion.
- Network and Access Information: The bidder should provide information on their network and access to the target locations.
- Safety, Security, and COVID-19 Related Policies: The bidder should provide safety, security, and COVID-19 related policies and procedures that will be applied during the evaluation.

- Confidentiality and Data Protection Policies: The bidder should provide confidentiality and data protection policies and procedures that will be applied during the evaluation.
- Data Collection Tool and Methodology: The bidder should provide information on the data collection tool and methodology of how the data will be analyzed.
- Personnel List and CVs: The bidder should provide a list of personnel who will be assigned to the contract, detailing the tasks of each, and provide CVs for listed key personnel. At least 50 percent of field monitors must be female, and gender equality in the project team will be recognized during the evaluation of bids.
- Sample Questionnaire and Report: The bidder should provide a sample questionnaire and report (with all related information removed to ensure anonymity).
- Alternative Methodology and Activities: The bidder should provide an alternative methodology and activities if the proposed activities cannot be conducted due to conflict or natural disaster related limitations and restrictions.

The Financial Proposal should include the following:

- Taxes and Costs: The bidder should include all taxes and costs associated with the proposed evaluation, ensuring that there are no hidden costs.
- Project Cost and Total: The financial proposal should show the cost of each project separately and the final total for all three projects.
- Payment Conditions: The bidder should include payment conditions, indicating the payment schedule and method of payment for the project.

11. Bidding format and content

The proposal should consist of three separate sub-folders, including administrative documents, technical proposal, and financial proposal. Bidders must submit all documents in the same sequence as listed in clause 10.

All documents should be scanned and submitted via email, or a link should be provided to download the documents. The following documents should be included in the bidding proposal:

- The tender reference number *JPF-YMN-23-001* must be specified in the email and file names
- Bidders who bid as a joint venture must sign the bids by all partners or by persons authorized to bid.
- In the tender letters for consortium bidders, the price that the consortium partners offer for the parts of the business that require their expertise will be written separately.
- The sum of the prices that the consortium partners offer shall constitute the consortium's total bid price.
- All bid letters submitted by the joint venture must be signed by all partners or by the representatives of the partners.

Proposals that do not conform to these requirements or have scrapes, erosions, or corrections will be rejected and will not be considered as submitted at all. These requirements ensure that the bidding process is conducted in a transparent and fair manner and that all bidders have an equal opportunity to submit their proposals.

12. Period of validity

The validity period of the tenders shall be at least 60 calendar days from the date of procurement. The bids which have shorter period of validity will not be taken into account.

In case of need, the Contracting Authority will make a request for extension of the validity period of the bid for a maximum of 30 days. The tenderer may accept or reject this request of the Contracting Authority. Requests and answers in this regard shall be made in writing.

Successful bidder must ensure the validity of the bid for the following 60 days from being notified of the entitlement to the contract. Regardless of the date of notification, 60 days are added to the first 60 days.

13. Currency of tenders

The amounts quoted in the offers given by the companies are required to be written in American Dollar - USD.

14. Language of offers and procedure

The proposals and all other related documents shall be the scanned version of the original document and shall be written in English. If the original document language is in a language other than English, then the translation of the document will be accepted along with the original.

15. Alteration or withdrawal of tenders

Bidders may not alter or withdraw their tenders after submission.

16. Notification award and contract signature

The successful bidder will be notified in writing, and the contract will be signed within ten (10) calendar days. Prior to the signing of the contract, a meeting will be conducted between JPF and the successful bidder to discuss the contract's terms and conditions. Firms that are not selected as a result of the evaluation will be notified in writing within fifteen (15) working days. If the successful bidder fails to sign the contract, the second-best bidder will be notified in writing by the tender committee, and a contract will be signed within ten (10) calendar days.

17. Cancellation of the tender procedure

In the event of a tender procedure's cancellation, JPF will notify the bidders of the cancellation. The tender procedure may be canceled in the following circumstances:

- The tender procedure has been unsuccessful, where no qualitatively or financially worthwhile tender has been received, or there has been no response at all.
- The economic or technical parameters of the project have been fundamentally altered.
- Exceptional circumstances or force majeure render the normal performance of the TPM impossible.
- All technically compliant tenders exceed the financial resources available.
- There have been irregularities in the procedure that prevent fair competition.

JPF shall not be liable for any damages arising from the cancellation of the tender, regardless of their nature (including damages for loss of profits) or relationship to the cancellation. The publication of a procurement notice does not obligate JPF to implement the announced third-party monitoring.

18. Reasons for disqualification from the tender

Bidders in the following cases shall be excluded from the tender if they are found to be:

- Bankrupt, in liquidation, or in a similar situation according to the legislative provisions in their home country, whose work is carried out by the court, declare concordat, or suspend their business.
- Proven by the employer to have engaged in activities that violate business or professional ethics during the course of business with the organizations within five (5) years prior to the date of procurement.
- Their membership/license has been canceled from the chamber they were required to register with, in accordance with the legislation as of the date of procurement.
- Bidders that fail to provide the requested documents, provide incomplete or misleading information, and/or submit falsified documents as requested by this tender dossier.
- Bidders shall be excluded from the tender if they engage in any of the following activities:
- Committing or attempting to commit mischief, fraud, making promises or threats to influence, exploiting the tender for personal gain, making deals, extortion, bribery, or other means of breach.
- Engaging in acts to influence other bidders' willingness to attend the tender, preventing their participation in the tender, making or offering deals to other bidders, and engaging in acts to influence fair competition or the tender decision.
- Arranging, using, or attempting to falsify documents or fraudulent collateral.

- Submitting more than one proposal, either directly or indirectly, in person or by proxy, on behalf of oneself or others.

19. Ethical Considerations

To ensure ethical conduct during monitoring and evaluation activities, the selected TPM entity must adhere to the following principles:

- All activities should be designed and conducted within the framework of Do No Harm principles and should respect and protect the safety, rights, and welfare of the beneficiaries, stakeholders, and the general public. The TPM entity should take all reasonable steps to ensure that monitoring and evaluation activities do not contradict ethical principles.
- The TPM entity must obtain consent from all participants in M&E data collection activities and must keep all data gathered confidential. Ownership of all data, information, and findings gathered through different M&E activities lies with the contracting authority (JPF).
- The TPM entity must adhere to the principles and policies of the member NGOs, with special attention given to Child Protection principles, Gender policy, and Preventing Sexual Exploitation, Abuse and Harassment (PSEAH) policy.

The TPM entity is responsible for having Health, Safety and Security principles, policies, and guidelines in place to protect their own staff, beneficiaries, and third parties.

20. Submission of Proposals

Interested Consultants/Companies/Organizations shall provide a proposal along with the information and documents listed under Clause 10, **until 17:00 (pm), 27th of August 2023**. The documents shall be in PDF format and signed by the authorized person. All the documents shall be in a zipped file and shall be send to the following e-mail address;

Name / Surname	Title	E-Mail Address
Procurement Department	-	procurement@japanplatform.org

21. Ownership of tenders

JPF is obliged to keep the procurement proposals collected as a result of this tender for future audits.

22. List Annexes

- Annex 1 JPF_Info_Sheet
- Annex 2 Project A - Summary Document for Evaluation
- Annex 3 Project B - Summary Document for Evaluation
- Annex 4 JPF CHS Evaluation Framework
