

Guidelines for the Initiation of Humanitarian Assistance under Nuclear Disaster Conditions

To guide organizations and supporters in delivering assistance rooted in the rights and needs of disaster survivors

DATE

March 31 (Tue)
2025

TIME

19:00–20:00 JST
10:00–11:00 UTC

PLATFORM

Zoom · Online
English · AI subtitles

WHAT WILL BE COVERED

- Why nuclear disasters require fundamentally different preparedness
- Radiation basics every aid worker and volunteer needs to know
- Staff safety standards & equipment for field deployment
- Supporting forced and voluntary evacuees equitably
- Managing evacuation centers under nuclear emergency conditions
- Long-term community support & addressing social fractures
- Inclusive approaches for vulnerable groups
- Key unresolved issues & the path forward

Developed over two years by JPF together with member NGOs/NPOs, Fukushima practitioners, and medical experts — drawing on more than ten years of support experience in Fukushima, and designed to be applicable beyond Japan.

WHO SHOULD ATTEND

- NGO / NPO Staff
- Disaster Responders
- International Humanitarian Orgs
- Local Government Officials
- Emergency Planners
- Researchers
- Journalists
- All Welcome
